PRESS RELEASE

TORONTO, Ontario – Samuel Manu-Tech Inc. (SMT-TSX) is pleased to announce the construction of a major new manufacturing facility in the United States. The modern 130,000 sq ft. plant represents the first U.S. location for the Roll Form Group of SMT. Established in partnership with State and local authorities, the plant will be located on 22 acres in Iuka, Mississippi, with easy access to barge, rail, and truck transportation.

This \$22 million U.S. project will create up to 70 new jobs and is expected to be operational in the first quarter of 2007. Included in the project is a heavy cold roll forming mill and a new state-of-the art very wide roll forming line. This new facility will supply ready-to-use, high quality custom formed components to better service customers in the transportation, construction and marine industries in the United States and Mexico.

Samuel Manu-Tech Inc. is a leading North American industrial products company producing and distributing a wide range of steel, plastic and related industrial products and services from locations in Canada and the United States.
